Guntur District – 522501

Subject: Revision of Project Registration and Adjustment of Charges – Ramagiri RE Project

Sir,

This refers to SECI's letter dated 10.06.2025 to the Special Chief Secretary (Energy), GoAP, regarding revision of project configuration and adjustment of charges for the Ramagiri RE project.

Initially, a 160 MW Wind-Solar Hybrid Project with 40 MWh storage was sanctioned by GoAP (Letter No. 175/POWER.II.2/2018 dated 09.05.2018) and registered with NREDCAP upon payment of ₹1.32 crore, as detailed below:

| Sr. No.      | Component                  | Rate (₹/MW) | Capacity (MW) | Amount (₹)  | GST @18% (₹) | Total (₹)   | Payment Date |
|--------------|----------------------------|-------------|---------------|-------------|--------------|-------------|--------------|
| 1            | Solar Project Registration | 35,000      | 120           | 42,00,000   | 7,56,000     | 49,56,000   | 19.01.2018   |
| 2            | Wind Project Registration  | 25,000      | 40            | 10,00,000   | 1,80,000     | 11,80,000   | 19.01.2018   |
| 3            | Wind Farm Allotment        | 1,50,000    | 40            | 60,00,000   | 10,80,000    | 70,80,000   | 13.07.2018   |
| <b>Total</b> |                            |             |               | 1,12,00,000 | 20,16,000    | 1,32,16,000 |              |

Due to circumstances beyond SECI's control, project with the original configuration could not be established. GoAP later approved inter-state sale (Letter No. NREDCAP-14021/1/2028 dated 20.03.2020) and the project was restructured as a 300 MW Solar PV project with evacuation via Pavagada CTU and power tied up with Madhya Pradesh.

In this context, SECI requests:

1. Revision of the original registration of 160 MW Wind-Solar Hybrid Project with 40 MWh storage to reflect the revised 300 MW Solar PV configuration
2. Adjustment of previously paid charges against the restructured project, as per applicable policy at the time of original sanction.

We seek your kind consideration and an early resolution of this long-pending matter.

Yours sincerely,

(Sivakumar V. Vepakomma)  
Director (Power System)

K. V. Rao:

for Secretary to Government

Annexure - III

No. SECI/PS/300 Ramagiri/2025/74431

Date: 10.06.2025

To  
The Special Chief Secretary  
Energy Department, Government of Andhra Pradesh  
Andhra Pradesh Secretariat, Velagapudi  
Guntur District, Andhra Pradesh – 522238

Subject: Request for Revision of Project Registration from 160 MW Wind-Solar Hybrid to 300 MW Solar PV Project at Ramagiri, Andhra Pradesh and Adjustment of Previously Paid Charges

Sir,

SECI had initially proposed development of a 160 MW Wind-Solar Hybrid Project with 40 MWh Energy Storage in the erstwhile Ananthapuramu district. The project was sanctioned by the Energy Department vide Letter No. 175/POWER.II.2/2018 dated 09.05.2018 (Annexure-1) and registered with NREDCAP upon payment of the following charges:

| Sr. No. | Component                  | Rate (Rs. /MW) | MW  | Amount (Rs.) | GST @18% (Rs.) | Total Amount (Rs.) | Payment Date |
|---------|----------------------------|----------------|-----|--------------|----------------|--------------------|--------------|
| 1       | Solar Project Registration | 35,000         | 120 | 42,00,000    | 7,56,000       | 49,56,000          | 19.01.2018   |
| 2       | Wind Project Registration  | 25,000         | 40  | 10,00,000    | 1,80,000       | 11,80,000          | 19.01.2018   |
| 3       | Wind Farm Allotment        | 1,50,000       | 40  | 60,00,000    | 10,80,000      | 70,80,000          | 13.07.2018   |
| Total   |                            |                |     | 1,12,00,000  | 20,16,000      | 1,32,16,000        |              |

Despite several consultations with GoAP, APPCC, NREDCAP, and APSPCL, agreement on tariff could not be reached due to circumstances beyond SECI's control.

(206)

Considering the extended delay and investments already made, particularly in land acquisition, SECI sought permission for inter-state power sale vide Letter No. SECI/SD/Hybrid/2020/028 dated 27.02.2020. The Government of Andhra Pradesh, vide Letter No. NREDCAP-14021/1/2028 dated 20.03.2020 (Annexure-2), approved evacuation through the nearest CTU substation.

Subsequently, the project was restructured into a 300 MW Solar PV Project, with long-term power sale tied up with the State of Madhya Pradesh and evacuation through the CTU substation at Pavagada. The project is currently under implementation and expected to be commissioned by January–February 2026.

In view of the above, SECI respectfully requests:

1. Revision of the original registration to reflect the restructured 300 MW Solar PV configuration and
2. Adjustment of the previously paid registration charges against the revised project, in accordance with applicable policy at the time of original sanction.

We look forward to your kind consideration and early resolution of the matter.

Yours sincerely,

  
(Sivakumar V. Vepakomma)  
Director (Power System)
