No. SECI/PSD/700 MW Radhanesda/2025/78254

Date - 26/11/2025

To
The Managing Director
Gujarat Energy Transmission Corporation Limited (GETCO)
Sardar Patel Vidyut Bhavan, Race Course
Vadodara-390007, Gujarat

Kind attention: Sh. Upendra Pande

Subject: Construction timeline of proposed transmission lines from Ghodasar and Tharad for evacuation of power from the Radhanesda-II Solar Park

Ref.: Tripartite meeting (GPCL, GETCO & SECI) held at the Office of the Additional Chief Secretary (EPD), Government of Gujarat on 30.12.2024

Dear Sir,

With reference to the above-mentioned meeting, it was agreed that GETCO would construct a 220 kV M/C Radhanesda line up to the LILo point of the 220 kV D/C Tharad-Ghodasar (Radhanesda) line as an interim arrangement to evacuate power from the proposed 700 MW renewable energy project of SECI. The cost of this arrangement was agreed to be borne by GETCO. It was also decided that GPCL would provide approximately 800 m × 750 m of land for establishing a 400/220 kV GETCO grid substation, with provisions for future upgradation to 765 kV. The required land has already been earmarked by GPCL and assessed by GETCO for feasibility.

We wish to update that SECI is in the final stages of tendering for the EPC contract for the project located in the land parcel acquired by GPCL from the Revenue Department, GoGJ. SECI plans to award the work by February 2026, and the entire power generated will be supplied to GUVNL.

Further, during the same meeting, GETCO had indicated a target to make the system operational by the SCOD of March 2027, with efforts to advance completion to December 2026.

In view of SECI's advanced tendering progress, we request you to kindly share the updated status of the above works and to expedite the activities, wherever necessary, to align with the project timelines.

Thank you for your continued cooperation and support.

Yours sincerely,

(Sivakumar V Vepakomma)
Director (PS)
