Dear Madam ,

Subject: Request for urgent intervention in allocation of land at Radhanesda for 700 MW solar project.

I am writing to seek your kind intervention in expediting the allocation of land at Radhanesda, where Gujarat Power Corporation Limited (GPCL) has planned a 700 MW Solar Park, and SECI proposes to establish a 700 MW Solar Power Project. The power generated from this project is to be supplied to GUVNL under the Power Usage Agreement signed on 16.10.2023.

2. The application for allocation of the identified land parcel has been under consideration with the Revenue Department for quite some time. As informed by GPCL, the matter is currently pending with the District Magistrate, Palanpur, due to certain compliance requirements or clarifications awaited at the district level. Despite sustained follow-up efforts by both SECI and GPCL, the matter remains unresolved.

3. This delay is holding up a project of strategic national importance. The 700 MW project is being implemented under the Government of India's CPSU Scheme, with power to be supplied to GUVNL at a highly competitive tariff of INR 2.57/kWh. All key stakeholders, including PMO, MNRE, and GUVNL, are closely tracking its progress. Timely allocation of land is critical to keep project activities on track and meet targeted timelines.

4. SECI and GPCL have already secured all statutory approvals, including those from MHA, MoD, and BFS, and submitted the required documentation in March 2025. SECI is fully ready with the tender documents, and GPCL has also undertaken pre-tendering assessments in anticipation of early land allotment. Meanwhile, GETCO, which is responsible for developing the power evacuation system, has concluded tendering but is unable to proceed further due to the pending land allocation.

5. In light of the above, I request your kind intervention for early resolution of the matter so that the project can move forward without further delay.

With regards,

Yours sincerely,

(Santosh Sarangi)
