Subject: Deposition of fee towards technical feasibility for grid connectivity: 200 MW SPV Project, Dhar

Reference: MPPTCL Letters dated: 05.11.2024 & dated: 26.07.2024

Sir,

This refers to the in-principle grid connectivity granted by MPPTCL for evacuation of power from SECI's 200 MW Solar Project, Dhar, at the Badnawar sub-station.

As required, SECI has deposited a fee of ₹1,00,000/- (Rupees One Lakh only) towards examination of technical feasibility in MPPTCL's designated account. The payment details are enclosed for your kind reference.

Status of other documents as per your communication is summarized below:

- **Land details:** 1135.95 acres allocated to NRED, GoMP, for onward transfer to SECI. Execution of the LUPA is under process and expected shortly.
- **DPR and SLD:** DPR preparation is underway. MNRE has accorded Solar Park status, with SECI acting as both SPPD and SPD. The DPR will be made accordingly.
- **Registration with MPNRED:** Completed. Proof enclosed.
- **CEA Registration Certificate:** Issued. Copy enclosed.
- **PPA with MPPMCL:** Executed. Copy enclosed.
- **Statutory clearances:** Will be obtained as required.

Further, SECI's Board approved investment for this project on 22.10.2025, and the Notice of Award has been issued to the selected EPC (BoS) contractor. Land demarcation and possession from NRED, GoMP are in progress, following which site mobilization and construction will commence shortly.

As the permission granted on 05.11.2024 is valid for one year, we request MPPTCL to kindly consider this as our undertaking to initiate construction activities at the earliest and not to cancel the permission pending completion of the initial groundwork.

Project registration with SLDC, Jabalpur, along with payment of prescribed fees, will also be completed as per due process before commissioning.

We appreciate your continued support and cooperation.

Thanking you,

Yours faithfully,

(Debajyoti Bordoloi)
